LARISSA Bed

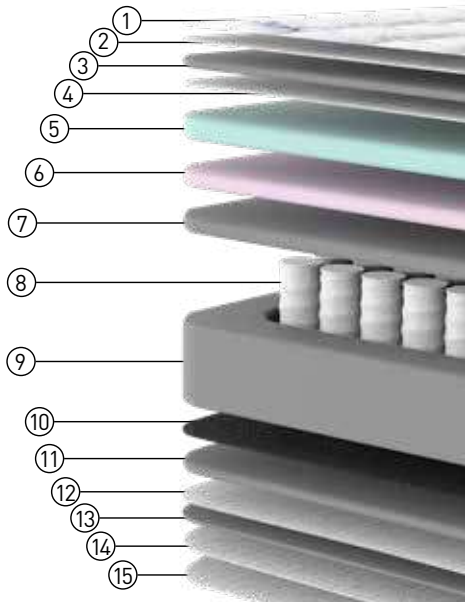

Larissa Mattress offers a medium feel, ideal for all kinds of sleepers. Reactive Pocket Spring ensure you receive maximum support no matter how you turn in the night.

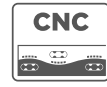

Pocket Spring housed in their own individual fabric pockets are able to move independently to provide tailored support directly to your pressure points. This means that as you move, the innovative springs adapt to ensure support is provided exactly where you need it. Helping to align your spine and control your posture, this spring system encourages the prevention of aches and pains for a more rejuvenating night's sleep.

DALLAS Bed

Offering firm, orthopaedic level of support, this luxury mattress ticks all the right boxes when it comes to quality and performance. Soft white fibre fillings made from 100% polyester give you plenty of snugglability and all-night comfort, while the traditional springs ensure you're constantly supported. This is a double-sided mattress, which means you can flip and turn it regularly to keep it in tip-top condition.

BAMBOO

ALL STAR

All star mattress is covered with Knitted fabric , which contributes to moisture balance for sensitive skin and it has a soft knit cover that can be removed for washing.

This mattress is made up of visco foam with a one layer of memory foam on the surface to give you great support. The top 'comfort layer' is made from specially developed, extra soft material for a feeling of instant relaxation. Working in perfect harmony with the lower support layers, once you settle into your most comfortable position your body weight is re distributed reducing pressure whilst you sleep

A setting of 30°C is recommended for washing

Most widely recognized NASA spinoff, memory foam was invented by NASA-funded researchers looking for ways to keep test pilots cushioned during flights.

Users report less pain since the Visco disperses body weight evenly across the mattress and thus relieves pressure points on shoulders, hips and legs.

VALENTE

Valente mattress consists of soft-touch and skin care fabric for a breathable, healthy sleep.

The mattress has a soft knit cover that can be removed for washing.

Enjoy a blissful night's sleep with the cosy comfort of a pillowtop, medium firmness, and the contouring support your body needs.

A setting of 30°C is recommended for washing

Pocket Spring technology allows for springs to move independently from each other, meaning there is no roll together effect and mattress shape is consistent from edge to edge. The Pocket Spring technology helps you to sleep in an anatomically correct position as it works in harmony with your body shape to provide support to all areas of the body, as well as reducing pressure points.

FLORA

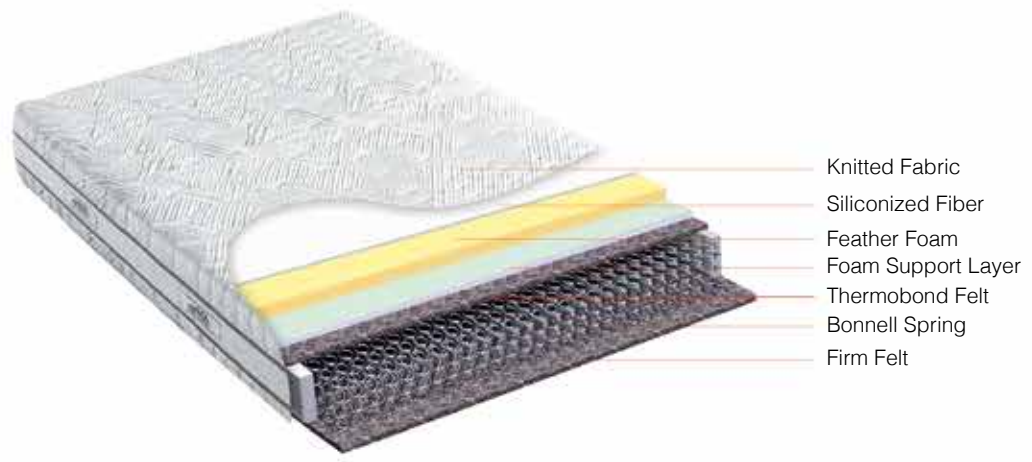

Combines the comfort and adaptability of feather foam and the strong edge support of springs. Heavy gauge coils topped with support foam and a thick layer of feather foam make this our softest bed. This advanced hybrid mattress combines the plush, contouring comfort of feather foam with the support of springs to bring you premium comfort you deserve.

Our mattress cover is totally machine washable with good durability.

Feather foam is usually denser and most people like the way that a memory foam mattress mould itself to your body. Soft and resilient, foam mattresses spread your body weight evenly to promote restful sleep and better blood circulation.

For a pleasant night

The softest and most bouncy mattress toppers on the market are polyester, Feather and Visco mattress toppers. If you really want to sink into the bed, we advise you to check our premium soft foam or visco foam mattress topper.

MATTRESS TOPPERS WITH FEATHER AND VISCO

They make it possible to soften and moderate the surface of a mattress that is too firm

They provide softness and lightness to minimize discomfort and make it easier for you to sleep soundly

They absorb movement and noise to create an ideal sleep environment for both partners

They are also suitable for people with joint problems and back pain via good pressure point relief

It is an economic solution to bring your mattress back to life

They relieve pressure and provide extra support
